4. **DISCUSSION ITEM(s)**
   a. **Mandatory Commercial Recycling Presentation** — **Kaoru Cruz, CalRecycle**
   Under the AB32 Global Warming Solutions Act Scoping Plan adopted by the California Air Resources Board (ARB) in December 2008, CalRecycle is developing regulations to implement a mandatory commercial recycling measure that identifies six material types to be targeted and diverted in sufficient quantities to achieve the approximately five million metric tons of carbon dioxide equivalent (5 MMTCO2e) in emission reductions. These materials are cardboard, lumber, metals, paper, glass, and plastic.

   Project Timeline - CalRecycle and ARB staff have developed the following timeline for adoption, implementation and enforcement of the measure:

   - **December 2009**--Presentation of draft regulatory language and regulatory approach
   - **Summer 2010**--Informal Stakeholder Feedback Workshop on the draft regulatory language on mandatory commercial recycling at the CalRecycle Materials Management and Local Assistance Program monthly public comment workshop on June 16, 2010.
   - **Fall 2010**--ARB hearing to consider the adoption of the commercial recycling regulation.

Non-confidential materials related to an item on this Agenda submitted to the LTF after distribution of the agenda packet are available for public inspection at the Solano County Government Center, 6th Floor Receptionist's Desk, 675 Texas Street, Fairfield, during normal business hours.
