Dear Mr. Yankovich:

I am most concerned about the growth patterns for Solano County in recent years. We have lived here since 1968 and owned property since early 1900's either by us or by my husband's family in Vallejo and Napa Junction area.

It is our desire to remain in the rural provincial atmosphere of our beloved Green Valley! Our home, which is a haven of refuge from the modern world of traffic frenzy and freeway madness, gives us enjoyment and unparalleled calm and serenity which comes from driving up a small, almost French like, country road to travel home. This was especially true when we were both working full time. Now that I am retired and my husband having died in December, it becomes even more important for me to feel the security and privacy of this bucolic place.

With the addition of 400 or more homes using ingress and egress from the Rockville Hills Park access area, I fear for the safety and serenity of this beautiful area. I am especially concerned about the traffic patterns which will become very difficult at the corner of Rockville Road and Green Valley Road which currently has only a stop sign!

Please let me know what the future holds for this issue. Surely not roundabouts or major traffic signals, I hope!!!!

Sincerely yours,

Carol J. Kalamaras
County Taxpayer since 1965
